

Cancer Prevention Awareness with MSK Direct

**Cancer screenings are important, so please don't wait.
Take charge of your health.**

Take the first step by answering a few questions to get personal screening recommendations from Memorial Sloan Kettering Cancer Center (MSK). In less than 5 minutes, you can learn if you are due for any cancer screenings, and can learn if you're at higher risk for certain hereditary cancers. If so, you may benefit from genetic testing.

To start now, please visit mskcc.org/direct/brown-brown-insurance/screening

If you or a family member are impacted by cancer and would like to discuss treatment options at MSK, call your dedicated MSK Direct phone line for Brown & Brown Inc.: **833-516-1113** or visit mskcc.org/bbins.
